

**FOR IMMEDIATE RELEASE:**

TRANSFORMER TEA®--"Improving the Quali-Tea of Life"

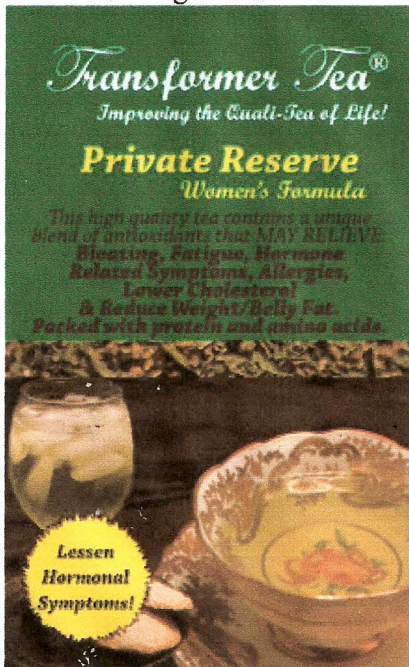

**TRANSFORMER TEA® OFFERS A NEW TEA DESIGNED FOR WOMEN**

ROCKY HILL, CT (February 27, 2012)-Transformer Tea® introduces its newest tea: Private Reserve Women's Formula. The platinum tea of the Transformer Tea line is a product designed to help reduce most hormonal issues that plaque women of all ages. Created and developed by nationally recognized science nutritionist and health expert, Pam Oliver, president of Body Transformers Inc., Private Reserve Women's Formula contains the unique blends of green teas combined with chlorophyll packed ingredients that allow the body to absorb a flow of nutrition.

"Women of ALL ages consistently complain of hormonal issues, starting from puberty through menopause/post menopause." Whether it's Pre-Menstrual Syndrome, which include: Bloating, Cramps, Fatigue, Irritability, OR the whole spectrum of Menopause, which include issues of: Excess Belly Fat, Rapid Weight Gain, Bloating, Hot Flashes, Constipation, and Fatigue, this new tea may help with many of the above referenced issues. "Women have shared that they feel as if their body's metabolism has completely stopped." Oliver also states that many women do not consume enough water and fluids consistently throughout the day. The body needs to be properly hydrated to enhance its performance.

To achieve the maximum benefits of Private Reserve Women's Formula, two to three cups should be consumed daily. Due to the types of green teas contained in this product, it is best to prepare it in a **drip** coffee maker with a filter, and **remove from heat immediately**, to ensure the quality strength of the ingredients. One of its ingredients even helps to lessen some allergy symptoms. This tea can be served hot or cold.

Oliver has developed: The Transformer Tea® Diet plan. A 28-day rebalancing weight-loss plan incorporates her green teas into the food plan. This helps to accelerate the metabolism. Participant's on this plan achieved faster results and commented on how consistent the weight-loss was during the four weeks.

**PRIVATE RESERVE**

**Women's Formula**

Finally, a unique green tea blend that is packed with protein and amino acids and designed to help lessen symptoms of:

BLOATING/(CAUSED BY MENOPAUSE OR PMS) OR EXCESS SALT.
